### Definition:

There are three types of telehealth services:

- **Asynchronous Telehealth (Store & Forward)** is the transfer of digital images, sounds, or previously recorded video from one location to another to allow a consulting practitioner (usually a specialist) to obtain information, analyze it, and report back to the referring practitioner. This is a non-interactive telecommunication because the physician or health care practitioner views the medical information without the patient being present.
- **Synchronous Telehealth** is real-time interactive video conferencing that involves communication between the patient and a distant practitioner who is performing the medical service. The practitioner sees the patient throughout the communication, so that two-way communication (sight and sound) can take place.

### CPT/HCPCS Codes:

Telehealth eligible CPT/HCPCS codes vary by payor (refer to payor guidelines section).

### Place of Service Codes:

**POS 02:** Telehealth Provided Other than in Patient's Home

- The location where health services and health related services are provided or received, through telecommunication technology. Patient is not located in their home when receiving health services or health related services through telecommunication technology.

**POS 10:** Telehealth Provided in Patient's Home

- The location where health services and health related services are provided or received through telecommunication technology. Patient is located in their home (which is a location other than a hospital or other facility where the patient receives care)

### Modifiers:

#### **Synchronous Telehealth Modifiers:**

- **95:** synchronous telemedicine service rendered via real-time Interactive audio and video telecommunications system
- **GT:** Via interactive audio and video telecommunication systems
- **G0:** Telehealth services furnished for purposes of diagnosis, evaluation, or treatment of symptoms of an acute stroke
- **FQ:** The service was furnished using audio-only communication technology.
- **93:** Synchronous telemedicine service rendered via telephone or other real-time interactive audio-only telecommunications system

#### **Asynchronous Telehealth Modifier:**

- **GQ:** Via an asynchronous telecommunications system

### Reporting Criteria:

- Report the appropriate E/M code for the professional service provided.
- Communication must be performed via live two-way interaction with both video and audio.
- HIPAA compliant platform

### Documentation Requirements:

Telehealth services have the same documentation requirements as a face-to-face encounter. The information of the visit, history, review of systems, consultative notes, or any information used to make a medical decision about the patient should be documented. In addition, the documentation should note that the service was provided through telehealth, both the location of the patient and the provider, and the names and roles of any other persons participating in the telehealth visit. Obtain verbal consent at the start of the visit and ensure consent is documented. Maintain a permanent record of the telehealth visit in the patient's medical record.

**Definition:**

Online Digital Evaluation and Management Services (E-Visits) are an E/M service provided by a Qualified Healthcare Professional or an assessment provided by a Qualified Nonphysician Healthcare Professional to a patient using an audio and visual software-based communication, such as a patient portal.

- **99422:** Online digital evaluation and management service, for an established patient, for up to 7 days, cumulative time during the 7 days; 11-20 minutes.
- **99423:** Online digital evaluation and management service, for an established patient, for up to 7 days, cumulative time during the 7 days; 21 or more minutes.

Reportable by Qualified Nonphysician Healthcare Professionals (Physical Therapists, Occupational Therapists, Speech Language Pathologists, Clinical Psychologists Registered Dietitian, etc.):

- **G2061/98970:** Qualified nonphysician healthcare professional online assessment, for an established patient, for up to seven days, cumulative time during the 7 days; 5-10 minutes.
- **G2062/98971:** Qualified nonphysician healthcare professional online assessment, for an established patient, for up to seven days, cumulative time during the 7 days; 11-20 minutes.
- **G2063/98972:** Qualified nonphysician healthcare professional online assessment, for an established patient, for up to seven days, cumulative time during the 7 days; 21 or more minutes.

**Reporting Criteria:**

- Online visits must be initiated by the patient. However, practitioners can educate beneficiaries on the availability of e-visits prior to patient initiation.
- The patient must be established
- E-Visit codes can only be reported once in a 7-day period.
- Cannot report when service originates from a related E/M service performed/reported within the previous 7 days, or for a related problem within a postoperative period.
- E-Visits are reimbursed based on time.
  - The 7-day period begins when the physician personally reviews the patient's inquiry.
  - Time counted is spent in evaluation, professional decision making, assessment and subsequent management.
  - Time is accumulated over the 7 days and includes time spent by the original physician and any other physicians or other qualified health professionals in the same group practice who may contribute to the cumulative service time.
  - Does not include time spent on non-evaluative electronic communications (scheduling, referral notifications, test result notifications, etc.). Clinical staff time is also not included.

**Documentation Requirements:**

These are time-based codes, and documentation must support what the physician did and for how long. Time is documented and calculated over the 7-day duration and must meet the CPTs time requirement. Obtain verbal consent at the start of the visit and ensure the consent is documented. Maintain a permanent record of the telehealth visit in the patient's medical record.

**Definition:**

A brief check in between a practitioner and a patient via telephone or other audiovisual device to decide whether an office visit or other service is needed. A remote evaluation is recorded video and/or images submitted by an established patient.

**CPT/HCPCS Codes:**

- **G2012:** Brief communication technology-based service, e.g. virtual check-in, by a physician or other qualified health care professional who can report evaluation and management services, provided to an established patient, not originating from a related E/M service provided within the previous 7 days nor leading to an E/M service or procedure within the next 24 hours or soonest available appointment; 5-10 minutes of medical discussion.
- **G2010:** Remote evaluation of recorded video and/or images submitted by an established patient (e.g., store and forward), including interpretation with follow-up with the patient within 24 business hours, not originating from a related E/M service provided within the previous 7 days nor leading to an E/M service or procedure within the next 24 hours or soonest available appointment.
- **G2250:** Remote assessment of recorded video and/or images submitted by an established patient (e.g., store and forward), including interpretation with follow-up with the patient within 24 business hours, not originating from a related service provided within the previous 7 days nor leading to a service or procedure within the next 24 hours or soonest available appointment.
- **G2251:** Brief communication technology-based service, e.g. virtual check-in, by a qualified health care professional who cannot report evaluation and management services, provided to an established patient, not originating from a related service provided within the previous 7 days nor leading to a service or procedure within the next 24 hours or soonest available appointment; 5-10 minutes of clinical discussion.
- **G2252:** Brief communication technology-based service, e.g. virtual check-in, by a physician or other qualified health care professional who can report evaluation and management services, provided to an established patient, not originating from a related e/m service provided within the previous 7 days nor leading to an e/m service or procedure within the next 24 hours or soonest available appointment; 11-20 minutes of medical discussion
- **G0071:** Payment for communication technology-based services for 5 minutes or more of a virtual (non-face-to-face) communication between an rural health clinic (RHC) or federally qualified health center (FQHC) practitioner and RHC or FQHC patient, or 5 minutes or more of remote evaluation of recorded video and/or images by an RHC or FQHC practitioner, occurring in lieu of an office visit; RHC or FQHC only.

**Reporting Criteria:**

- The patient must be established.
- Communication must be a direct interaction between the patient and the practitioner. Not billable if performed by clinical staff.
- If the virtual check-in originates from a related E/M provided within the previous 7 days, then the service is considered bundled into that previous E/M or assessment and would not be separately billable.
- If the virtual check-in leads to an E/M within the next 24 hours or soonest available appointment, then the service is considered bundled into the pre-visit time of the associated E/M and would not be separately billable.

**Documentation Requirements:**

### Telehealth:

#### *Allowable Services:*

AZ Blue offers coverage of telehealth services in compliance with Arizona's telehealth law (HB 2454)

- Requires all healthcare services that are appropriately provided through an audio-video format to be covered and reimbursed at the same level as if they were provided in-person
- Broadens the range of provider types and services eligible for telehealth delivery
- Provides coverage for telehealth services only when rendered by in-network providers (except for emergency care)
- Provides coverage for audio-only visits in certain limited situations. Except for behavioral health visits, these services may be reimbursed at a lower rate than the in-person rate.
- Establishes a Telehealth Advisory Committee on Telehealth Best Practices to determine which services are appropriate for telehealth delivery and which audio-only services must be covered
  - The committee's guidelines, along with the provider's clinical judgment and scope of practice, determine the appropriateness of delivering a particular service via telehealth

Except for Schedule II drugs, providers are not required to perform an in-person examination before prescribing prescription drugs. Schedule II drugs require an in-person or audio-video telehealth examination.

#### *Audio Only Services:*

Providers may submit claims for audio-only visits only if they also make audio-video visits generally available. Audio-only services are covered if the member and provider have an existing relationship and all of the following criteria are met:

- An audio-video visit is not reasonable because of the member's functional status or lack of technology
- The audio-only visit is initiated at the request of the member or authorized by the member before the encounter and the member's initiation or consent (may be given by electronic means) must be documented in the patient's medical record.

If the above two criteria are met, an existing relationship between the member and the provider is not required for audio-only behavioral health or substance use disorder services. Include documentation of the rationale for using audio-only technology for the visit.

#### *Documentation & Notification:*

- Before a telehealth visit, the provider must inform the member if there is a charge for the visit, including applicable member cost-share
- During a telehealth visit, providers must access patient records, if available, that are appropriate to assess the patient.
- Medical reports resulting from a telehealth consultation are part of the patient's medical record.

#### *Modifiers/POS:*

- **POS:** 02 or 10
- **Modifier 95, GT**  
**Audio Only 93** for commercial and FQ for Medicare Advantage

**Provider Type:**

Providers must comply with current Arizona licensure and liability insurance requirements, including scope of practice and standards of care. Out-of-state licensure may be acceptable if the provider is registered with the applicable Arizona regulatory board or licensing agency, the license is substantially similar to an equivalent license issued in Arizona and is not subject to any past or pending disciplinary proceedings

**Reimbursement:**

Per AZ Rev. Statutes, Sec. 20-841.09 a corporation shall reimburse health care providers at the same level of payment for equivalent services as identified by the healthcare common procedure coding system, whether provided through telehealth using an audio-visual format or in-person care. A corporation shall reimburse health care providers at the same level of payment for equivalent in-person behavioral health and substance use disorder services as identified by the healthcare common procedure coding system if provided through telehealth using an audio-only format

**Transmission & Originating Site Fees:**

Only facilities licensed to provide outpatient services are eligible to receive payment for the origination site code (Q3014).

- Facilities for outpatient services use the allowable revenue codes to indicate telehealth.
- Professional provider offices and clinics will be paid for professional services billed.
- Hospitals or other facilities will receive only the inpatient payment (DRG, per diem) for inpatient services.

#### **Consent:**

Providers may get patient consent at the same time they initially provide the services. Direct supervision isn't required to get consent. In general, auxiliary personnel under general supervision of the billing practitioner can get patient consent for these services.

#### **Hospital Based Providers:**

Hospitals and other providers of PT, OT, SLP, diabetes self-management training (DSMT) and medical nutrition therapy (MNT) services can continue to bill for telehealth services when provided remotely in the same way they've been during the PHE and the remainder of CY 2023, except that:

- For outpatient hospitals, patients' homes no longer need to be registered as provider-based entities to allow for hospitals to bill for these services

- The provider (or another provider in the same practice and subspecialty) has conducted an in-person (non-telehealth) visit within 6 months
- After the initial tele-mental health visit, the provider must conduct an in-person visit at least once every 12 months
  - However, this visit is not required if the patient and provider consider the risks of an in-person visit and agree that the risks outweigh the benefits
  - Provider should document decision in the patient's medical record
- Through December 31st, 2024, the initial 6 month visit and the in person visit every 12 month requirement is waived

### **Provider Type:**

Physicians, nurse practitioners, physician assistants, nurse midwives, certified nurse anesthetists, clinical psychologists, clinical social workers, registered dietitians, and nutrition professionals

### Remote Patient Monitoring:

The Contractor and FFS Programs cover both synchronous and asynchronous remote patient monitoring. Coverage of equipment and/or supplies for remote patient monitoring is limited to when:

- The service being provided is an AHCCCS covered service eligible for remote monitoring, and
- The equipment and/or supplies are AHCCCS covered items.

The AHCCCS Telehealth code set defines which codes are billable as a remote patient monitoring service and the applicable modifier(s) and place of service providers shall use when billing for a service provided through remote patient monitoring.

### Telehealth:

#### *Allowable Codes:*

Allowable telehealth code set in below table

The Contractor and FFS programs may not limit or deny the coverage of services provided through telehealth and may apply only the same limits or exclusions on a service provided through telehealth that are applicable to an in-person encounter for the same service, except for services for which the weight of evidence, based on practice guidelines, peer-reviewed clinical publications or research or recommendations by the Telehealth Advisory Committee on telehealth best practices established by A.R.S. § 36-3607, determines not to be appropriate to be provided through telehealth

#### *Appropriate Service Determination*

A provider shall make a good faith effort in determining both of the following:

- 1.) Whether a service should be provided through telehealth instead of in-person
  - a. The provider shall use clinical judgment in considering whether the nature of the services necessitates physical interventions and close observation and the circumstances of the member, including: i. Diagnosis, ii. Symptoms, iii. History, iv. Age, and v. Physical location and access to telehealth.
- 2.) The communication medium of telehealth and, whenever reasonably practicable, the telehealth communication medium that allows the provider to assess, diagnose, and treat the member most effectively. Factors the provider may consider in determining the communication medium include the member's lack of access to or inability to use technology or limits in telecommunication infrastructure necessary to support interactive telehealth encounters.

#### *Teledentistry Services*

The Contractor and FFS Programs shall cover Teledentistry for Early and Periodic Screening, Diagnostic and Treatment (EPSDT) aged members when provided by an AHCCCS registered dental provider. Teledentistry includes the provision of preventative and other approved therapeutic services by the AHCCCS registered Affiliated Practice Dental Hygienist, who provides dental hygiene services under an affiliated practice relationship with a dentist. Teledentistry does not replace the

dental examination by the dentist. Limited exams may be billed through the use of Teledentistry. Periodic and comprehensive examinations cannot be billed through the use of teledentistry alone.

***Allowable Codes:***

Allowable telehealth code set in below table

The Contractor and FFS programs may not limit or deny the coverage of services provided through telehealth and may apply only the same limits or exclusions on a service provided through telehealth that are applicable to an in-person encounter for the same service, except for services for which the weight of evidence, based on practice guidelines, peer-reviewed clinical publications or research or recommendations by the Telehealth Advisory Committee on telehealth best practices established by A.R.S. § 36-3607, determines not to be appropriate to be provided through telehealth

***Appropriate Service Determination***

A provider shall make a good faith effort in determining both of the following:

- 3.) Whether a service should be provided through telehealth instead of in-person
  - a. The provider shall use clinical judgment in considering whether the nature of the services necessitates physical interventions and close observation and the circumstances of the member, including: i. Diagnosis, ii. Symptoms, iii. History, iv. Age, and v. Physical location and access to telehealth.
- 4.) The communication medium of telehealth and, whenever reasonably practicable, the telehealth communication medium that allows the provider to assess, diagnose, and treat the member most effectively. Factors the provider may consider in determining the communication medium include the member's lack of access to or inability to use technology or limits in telecommunication infrastructure necessary to support interactive telehealth encounters.

***Teledentistry Services***

The Contractor and FFS Programs shall cover Teledentistry for Early and Periodic Screening, Diagnostic and Treatment (EPSDT) aged members when provided by an AHCCCS registered dental provider. Teledentistry includes the provision of preventative and other approved therapeutic services by the AHCCCS registered Affiliated Practice Dental Hygienist, who provides dental hygiene services under an affiliated practice relationship with a dentist. Teledentistry does not replace the dental examination by the dentist. Limited exams may be billed through the use of Teledentistry. Periodic and comprehensive examinations cannot be billed through the use of teledentistry alone.
