Definition:

There are two types of telehealth services:

- **Asynchronous Telehealth (Store & Forward)** is the transfer of digital images, sounds, or previously recorded video from one location to another to allow a consulting practitioner (usually a specialist) to obtain information, analyze it, and report back to the referring practitioner. This is a non-interactive telecommunication because the physician or health care practitioner views the medical information without the patient being present.
- **Synchronous Telehealth** is real-time interactive video teleconferencing that involves communication between the patient and a distant practitioner who is performing the medical service. The practitioner sees the patient throughout the communication, so that two-way communication (sight and sound) can take place.

Telehealth:

Allowable Services:

AZ Blue offers coverage of telehealth services in compliance with Arizona's telehealth law (HB 2454), which states that a health insurer may not limit or deny coverage of health care services provided through telehealth, including ancillary services, except for procedures or service for which the weight of evidence, based on peer-reviewed clinical publications or research recommends not be provided through telehealth

- Except for Schedule II drugs, providers are not required to perform an in-person examination before prescribing prescription drugs. Schedule II drugs require an in-person or audio-video telehealth examination.

Audio Only Services:

Providers may submit claims for audio-only visits only if they also make audio-video visits generally available. Audio-only services are covered if the member and provider have an existing relationship and all of the following criteria are met:

- An audio-video visit is not reasonable because of the member's functional status or lack of technology
- The audio-only visit is initiated at the request of the member or authorized by the member before the encounter and the member's initiation or consent (may be given by electronic means) must be documented in the patient's medical record.

If the above two criteria are met, an existing relationship between the member and the provider is not required for audio-only behavioral health or substance use disorder services. Include documentation of the rationale for using audio-only technology for the visit.

Documentation & Notification:

- Before a telehealth visit, the provider must inform the member if there is a charge for the visit, including applicable member cost-share
- During a telehealth visit, providers must access patient records, if available, that are appropriate to assess the patient.
- Medical reports resulting from a telehealth consultation are part of the patient's medical record.

Modifiers/POS:

- **POS:** 02 or 10

Out-of-state licensure may be acceptable if the provider is registered with the applicable Arizona regulatory board or licensing agency, the license is substantially similar to an equivalent license issued in Arizona and is not subject to any past or pending disciplinary proceedings

Reimbursement:

Per AZ Rev. Stat. § 20-841.09, insurers must reimburse providers at the same rate for equivalent services (based on HCPCS/CPT codes) delivered via audio-visual telehealth or in person, and must provide the same reimbursement for behavioral health and substance use disorder services delivered via audio-only telehealth.

Transmission & Originating Site Fees:

Only facilities licensed to provide outpatient services are eligible to receive payment for the originating site code (Q3014).

- Facilities for outpatient services use the allowable revenue codes to indicate telehealth.
- Professional provider offices and clinics will be paid for professional services billed.
- Hospitals or other facilities will receive only the inpatient payment (DRG, per diem) for inpatient services.

Allowable Codes:

See table below for codes allowable via telehealth

- Effective January 1st, 2026, CMS permanently removed the application of telehealth frequency limits on subsequent inpatient and nursing facility visits and critical care consultations

Audio Only:

Beneficiaries may continue to receive audio-only telehealth services in their homes through December 31, 2027

- Audio-only can be used for both new and established patients
- Utilized when the patient is not capable of or does not consent to using audio-video communication technology
- Provider must be technically capable of using audio-video communication technology
- Beneficiaries who are receiving remote mental health services, as defined in the CY 2023 and 2024 OPSS Final Rules, furnished by hospital-employed staff in their homes may also receive these services via audio-only communication technology
- Starting January 1, 2028, providers may only use audio-only communication technology for behavioral health services furnished to a patient in their home

Consent:

Providers may get patient consent at the same time they initially provide the services. Direct supervision isn't required to get consent. In general, auxiliary personnel under general supervision of the billing practitioner can get patient consent for these services.

Hospital Based Providers:

Hospitals and other providers of PT, OT, SLP, diabetes self-management training (DSMT) and medical nutrition therapy (MNT) services can continue to bill for telehealth services through December 31st, 2027

- For outpatient hospitals, patients' homes no longer need to be registered as provider-based entities to allow for hospitals to bill for these services
- The 95 modifier is required on claims from all providers, except for Critical Access Hospitals (CAHs) electing Method II (which utilize a GT modifier)

Medicare Shared Savings Program Accountable Care Organizations (ACOs)

 - These flexibilities apply only to applicable ACOs with prospective beneficiary assignment in the ENHANCED track or BASIC track Levels C–E, and services must be billed under the ACO participant's TIN for assigned beneficiaries
 - ACOs using retrospective assignment and non-risk ACOs do not qualify and must follow standard Medicare fee-for-service telehealth rules

Modifiers/POS:

- **Professional Claims:**
 - **POS:** 02 or 10
- **Institutional Claims:**
 - Modifier 95 is for outpatient therapy services provided via telehealth by a qualified physical therapists, occupational therapists, or speech language pathologists employed by hospitals

- The provider (or another provider in the same practice and subspecialty) has conducted an in-person (non-telehealth) visit within 6 months
- After the initial tele-mental health visit, the provider must conduct an in-person visit at least once every 12 months
 - However, this visit is not required if the patient and provider consider the risks of an in-person visit and agree that the risks outweigh the benefits
 - Provider should document the decision in the patient's medical record
- Through December 31st, 2027, the initial 6 month visit requirement and the in person visit every 12 month requirement, is waived

Provider Type:

Allowable telehealth providers are physicians, nurse practitioners, physician assistants, nurse midwives, certified nurse anesthetists, clinical psychologists, clinical social workers, registered dietitians, marriage and family therapists, mental health counselors, and nutrition professionals

Virtual-only telehealth practitioners whose only physical practice location is their home address will need to enroll their home address as a practice location.

Payor Specific Key Points:

E-Visits/Virtual Check Ins:

Allowable Codes:

- **E-Visits:** 99421-99423, 98970-98972
- **Virtual Check-Ins:** 98016

Modifier:

- Appropriate Modifier Per Telehealth List Below

Remote Patient Monitoring:

The Contractor and FFS Programs cover both synchronous and asynchronous remote patient monitoring. Coverage of equipment and/or supplies for remote patient monitoring is limited to when:

- The service being provided is an AHCCCS covered service eligible for remote monitoring, and
- The equipment and/or supplies are AHCCCS covered items.

The AHCCCS Telehealth code set defines which codes are billable as a remote patient monitoring service and the applicable modifier(s) and place of service providers shall use when billing for a service provided through remote patient monitoring.

Telehealth:

Allowable Codes:

Allowable telehealth code set in below table

Cannot limit or deny the coverage of services provided through telehealth and may apply only the same limits or exclusions on a service provided through telehealth that are applicable to an in-person encounter for the same service, except for services for which the weight of evidence, based on practice guidelines, peer-reviewed clinical publications or research or recommendations by the Telehealth Advisory Committee on telehealth best practices established by A.R.S. § 36-3607, determines not to be appropriate to be provided through telehealth

Appropriate Service Determination

A provider shall make a good faith effort in determining both of the following:

- 1.) Whether a service should be provided through telehealth instead of in-person
 - a. The provider shall use clinical judgment in considering whether the nature of the services necessitates physical interventions and close observation and the circumstances of the member, including: i. Diagnosis, ii. Symptoms, iii. History, iv. Age, and v. Physical location and access to telehealth.
- 2.) The communication medium of telehealth and, whenever reasonably practicable, the telehealth communication medium that allows the provider to assess, diagnose, and treat the member most effectively. Factors the provider may consider in determining the communication medium include the member's lack of access to or inability to use technology or limits in telecommunication infrastructure necessary to support interactive telehealth encounters.

Teledentistry Services

Teledentistry for Early and Periodic Screening, Diagnostic and Treatment (EPSDT) aged members are covered when provided by an AHCCCS registered dental provider. Teledentistry includes the provision of preventative and other approved therapeutic services by the AHCCCS registered Affiliated Practice Dental Hygienist, who provides dental hygiene services under an affiliated practice relationship with a dentist. Teledentistry does not replace the dental examination by the dentist. Limited exams may be billed through the use of Teledentistry. Periodic and comprehensive examinations cannot be billed through the use of teledentistry alone.

Asynchronous Services

Behavioral Health, Cardiology, Dermatology, Infectious Disease, Neurology, Ophthalmology, Pathology, Radiology

Conditions and Limitations:

- Non-Emergency Transportation (NEMT) is a covered benefit for member transport to and from the originating site where applicable.
- Services provided through telehealth or resulting from a telehealth encounter are subject to all applicable statutes and rules that govern prescribing, dispensing, and administering prescription medications and devices.
- Informed consent standards for telehealth services shall adhere to all applicable statutes and policies governing informed consent, including A.R.S. § 36-3602.
- Privacy and confidentiality standards for telehealth services shall adhere to all applicable statutes and policies governing healthcare services, including the Health Insurance Portability and Accountability Act (HIPAA).
- There are no Place of Service (POS) restrictions for distant site

Audio Only Services:

Audio-only services are covered if a telemedicine encounter is not reasonably available due to the member's functional status, the member's lack of technology or telecommunications infrastructure limits, as determined by the provider.

- To submit a claim for an audio-only service, the provider shall make the telehealth services generally available to members through telemedicine.
- Reimbursement to providers will be at the same level of payment for equivalent in-person office/facility setting for mental health and substance use disorder services, as identified by HCPCS, if provided through telehealth using an audio-only format
- The AHCCCS Telehealth code set defines which codes are billable as an audio-only service and the applicable modifier(s) and place of service providers shall use when billing for an audio-only service

Modifiers/POS:

- **POS:** Place of service should follow current AHCCCS billing guidance and the AHCCCS Telehealth Code Set. For AHCCCS FFS, the POS on the claim is the originating site, meaning the member's location at the time of service. There are no POS restrictions for the distant site.
- **Modifier**
 - **Synchronous:** GT
 - **Asynchronous:** GQ
 - **Audio Only:** FQ

For Medicare dual-eligible members, claims may be submitted with POS 02 to comply with Medicare guidelines, as described in the AHCCCS FFS Provider Billing Manual.

Patient Location:

Defined per code, see allowable code and place of service below

There are no geographic restrictions for telehealth; services delivered via telehealth are covered by AHCCCS in rural and metropolitan regions

Provider Type:

All telehealth reimbursable services shall be provided by an AHCCCS registered provider within their scope of practice.

A provider who is not licensed within the State of Arizona may provide telehealth services to an AHCCCS member located in the state if the provider is an AHCCCS registered provider and complies with all requirements listed within A.R.S. § 36-3606

Reimbursement:

Reimbursement will be made at the same level of payment for equivalent services as identified by the HCPCS whether provided via telemedicine or in-person office/facility setting.

Transmission & Originating Site Fees

Transmission and originating site HCPCS are not listed in the eligible telehealth code list.

UHC will allow any services on the below lists:

- Services recognized by the Centers for Medicare and Medicaid Services (CMS)
- Services recognized by the American Medical Association (AMA) included in Appendix P of the CPT code set
- Additional services identified by UnitedHealthcare that can be effectively performed via Telehealth
 - See Telehealth Allowable Codes table below for UHC specified codes
- Consistent with CMS, UHC will not recognize CPT 98000-98015, as they are assigned to status code "I" on the NPFs Relative Value File, indicating another code (replacement code) is used to report the procedure or service and that replacement code has an assigned RVU

Physical Health, Occupational, and Speech Therapy:

UHC will reimburse certain physical, occupational, and speech therapy (PT/OT/ST) Telehealth services provided by QHPs rendered via interactive audio and video technology.

Services submitted on a CMS 1500 form should include:

- Code(s) from the list of specific physical, occupational and speech therapy Telehealth services (see the PT/OT/ST Telehealth Eligible Services Code List in the Attachments section)
- The appropriate place of service code 02 or 10 in Box 24B

All PT/OT/ST Telehealth visits must be performed using live, interactive video conferencing that involves the presence of both parties at the same time and a communication link between them that allows a real-time audio and visual interaction to take place. E-mailing "stored" exercise videos and discussing or reviewing by phone is not reimbursable.

- **POS** 02 or 10
- **Modifiers**

- **Audio Visual:** 95, GT, GQ, and G0 are not required to identify telehealth services but are accepted as informational if reported on claims

Provider Type:

Physician, nurse practitioner, physician assistant, nurse-midwife, clinical nurse specialist, registered dietitian or nutrition professional, clinical psychologist, clinical social worker, certified registered nurse anesthetists, physical therapists, occupational therapists, and speech therapists.

Patient Location:

UHC will recognize CMS designated originating sites considered eligible for furnishing telehealth services to a patient located in an originating site.

- Examples of CMS originating sites with a telepresenter: the office of a physician or practitioner, hospital, critical access hospital (CAH), rural health clinic (RHC), federally qualified health center (FQHC), hospital based renal dialysis center, skilled nursing facility (SNF), community mental health center (CMHC), mobile stroke unit, patient home-for monthly end stage renal, ESRD-related clinical assessments, for purposes of treatment of a substance use disorder or a co-occurring mental health disorder.
- UHC will also recognize home as an originating site for telehealth services (no telepresenter present)

Reimbursement:

Per AZ Rev. Stat. § 20-841.09, insurers must reimburse providers at the same rate for equivalent services (based on HCPCS/CPT codes) delivered via audio-visual telehealth or in person, and must provide the same reimbursement for behavioral health and substance use disorder services delivered via audio-only telehealth.

Transmission & Originating Site Fees:

Claims for Originating Site services may be reported using HCPCS code Q3014 (Telehealth Originating Site facility fee) on either a professional (CMS-1500) or a facility (UB-04) claim when a Telepresenter is present at an Originating Site location other than the patient’s home. Q3014 is not reimbursable when the Distant Site claim is reported with a POS 10 indicating the patient is located at home and not receiving any Originating Site services from a Telepresenter. T1014 is not eligible for payment, UHC considers these services as incidental to the charges associated with the E/M.

Audio Only Services:

Telehealth services must be performed over an audiovisual connection, unless an audio-only allowable code is utilized

- UHC will align with the AMA and will consider for reimbursement the services included in Appendix T of the CPT code set, which are appropriate for reporting real-time, interactive audio-only telehealth, when appended with modifier 93, and reported with POS 02 or 10.

The AHCCCS Telehealth code set defines which codes are billable as a remote patient monitoring service and the applicable modifier(s) and place of service providers shall use when billing for a service provided through remote patient monitoring.

Telehealth:

Allowable Codes:

Allowable telehealth code set in below table

Cannot limit or deny the coverage of services provided through telehealth and may apply only the same limits or exclusions on a service provided through telehealth that are applicable to an in-person encounter for the same service, except for services for which the weight of evidence, based on practice guidelines, peer-reviewed clinical publications or research or recommendations by the Telehealth Advisory Committee on telehealth best practices established by A.R.S. § 36-3607, determines not to be appropriate to be provided through telehealth

Appropriate Service Determination

A provider shall make a good faith effort in determining both of the following:

- 3.) Whether a service should be provided through telehealth instead of in-person
 - a. The provider shall use clinical judgment in considering whether the nature of the services necessitates physical interventions and close observation and the circumstances of the member, including: i. Diagnosis, ii. Symptoms, iii. History, iv. Age, and v. Physical location and access to telehealth.
- 4.) The communication medium of telehealth and, whenever reasonably practicable, the telehealth communication medium that allows the provider to assess, diagnose, and treat the member most effectively. Factors the provider may consider in determining the communication medium include the member's lack of access to or inability to use technology or limits in telecommunication infrastructure necessary to support interactive telehealth encounters.

Teledentistry Services

Teledentistry for Early and Periodic Screening, Diagnostic and Treatment (EPSDT) aged members are covered when provided by an AHCCCS registered dental provider. Teledentistry includes the provision of preventative and other approved therapeutic services by the AHCCCS registered Affiliated Practice Dental Hygienist, who provides dental hygiene services under an affiliated practice relationship with a dentist. Teledentistry does not replace the dental examination by the dentist. Limited exams may be billed through the use of Teledentistry. Periodic and comprehensive examinations cannot be billed through the use of teledentistry alone.

Asynchronous Services

Behavioral Health, Cardiology, Dermatology, Infectious Disease, Neurology, Ophthalmology, Pathology, Radiology

Conditions and Limitations:

- Non-Emergency Transportation (NEMT) is a covered benefit for member transport to and from the originating site where applicable.
- Services provided through telehealth or resulting from a telehealth encounter are subject to all applicable statutes and rules that govern prescribing, dispensing, and administering prescription medications and devices.
- Informed consent standards for telehealth services shall adhere to all applicable statutes and policies governing informed consent, including A.R.S. § 36-3602.
- Privacy and confidentiality standards for telehealth services shall adhere to all applicable statutes and policies governing healthcare services, including the Health Insurance Portability and Accountability Act (HIPAA).
- There are no Place of Service (POS) restrictions for distant site

Audio Only Services:

Audio-only services are covered if a telemedicine encounter is not reasonably available due to the member's functional status, the member's lack of technology or telecommunications infrastructure limits, as determined by the provider.

- To submit a claim for an audio-only service, the provider shall make the telehealth services generally available to members through telemedicine.
- Reimbursement to providers will be at the same level of payment for equivalent in-person office/facility setting for mental health and substance use disorder services, as identified by HCPCS, if provided through telehealth using an audio-only format
- The AHCCCS Telehealth code set defines which codes are billable as an audio-only service and the applicable modifier(s) and place of service providers shall use when billing for an audio-only service

Modifiers/POS:

- **POS:** Place of service should follow current AHCCCS billing guidance and the AHCCCS Telehealth Code Set. For AHCCCS FFS, the POS on the claim is the originating site, meaning the member's location at the time of service. There are no POS restrictions for the distant site.
- **Modifier**
 - **Synchronous:** GT
 - **Asynchronous:** GQ
 - **Audio Only:** FQ

For Medicare dual-eligible members, claims may be submitted with POS 02 to comply with Medicare guidelines, as described in the AHCCCS FFS Provider Billing Manual.

Patient Location:

Defined per code, see allowable code and place of service below

There are no geographic restrictions for telehealth; services delivered via telehealth are covered by AHCCCS in rural and metropolitan regions

Provider Type:

All telehealth reimbursable services shall be provided by an AHCCCS registered provider within their scope of practice.

A provider who is not licensed within the State of Arizona may provide telehealth services to an AHCCCS member located in the state if the provider is an AHCCCS registered provider and complies with all requirements listed within A.R.S. § 36-3606

Reimbursement:

Reimbursement will be made at the same level of payment for equivalent services as identified by the HCPCS whether provided via telemedicine or in-person office/facility setting.

Transmission & Originating Site Fees

Transmission and originating site HCPCS are not listed in the eligible telehealth code list.
